

*Committee: Security Council*

*Delegation:*

*Fatemeh Hamidia- Nasim Mostaqimi fard - USA*

*Appointment of AntónioGuterres as United Nations Secretary-General*

*Today is a “momentous” day, saying a decision of “deep consequence”, is going to shape from the outset through committed engagement .*

*We have to select a candidate who is prepared to cut past the jargon & the acronyms and the sterile briefings and get real. Someone who knows the only measure of our work . Selections have to based on merit , relevant experience & confidence & ability to lead. We have to look with great expectation at the process of security council , hoping that security council will take a decision that reflects our highest aspirations & select a candidate who embodies all of the necessary qualities, being competence , conviction , courage , communication skills , charisma , to lead the Secretariat and hopefully the world to a better day .*

*We're facing too many critical challenges such as , climate change , massive tragedies across the globe , and particular middle east & Africa .*

*The new Secretary General has to have the courage of conviction to stand up , for what is right on behalf of the human rights of all people of the world , including standing up to those who are in massive tragedies and those who are responsible for massive tragedies and bring those to an end .*

*Candidate who is enable to enforce . He will hopefully raise his voice loudly and clearly demanding .*

*It's time that the Secretary General and the General Assembly both call upon the council to effectively & promptly address the lingering conflicts and the massive tragedies that are plaguing the world .*

*Look out Syria , refugees and perhaps more broadly human rights ., So the new secretary general has to be someone who has competence , negotiations , skills , values , knowledge , to make the UN relevant again . we need a Man of experience to take the top seat !*

*The issue is not really want a woman or man .Whether any SC will have the kind of influence that is needed to close this growing gap between Russia and the West , one the one hand , and between China and the West on the other .That's the real issue .*

*we need someone who knows the UN really well , Being diplomat of a politician on the one hand Good manager on the other hand . He would not ride off the UN , nor over blow its influence but make the Un relevant again . He has the potential to do it .*

*The right man , at the right place , try to do that . The best man in the race .*
